

THE GREEN APPLE ENVIRONMENT AWARDS

Rewarding & promoting environmental best practice since 1994

Climate Integrated Solutions are proud to announce we have been awarded 2 prestigious International Green Apple Awards 2021 for Environmental Best Practise.

The Green Apple Awards are the longest running and one of the most prestigious environmental awards in the UK.

CIS worked closely with our client partners throughout each project and competed against more than 500 other nominations in the International Green Apple Awards. Presentation is set for this autumn where we hope to attend with our clients to celebrate this recognition of the works completed and the close working relationship developed with our partners to ensure a successful outcome for both projects.

WHAT ARE THE GREEN APPLE AWARDS?

The Green Apple Environment Awards were established in 1994 as an annual campaign to recognise, reward and promote environmental best practice around the world.

The Green Apple Awards scheme was the first to be accredited as an official feeder scheme into the European Business Awards for the Environment and it is now the only official feeder scheme into the Green World Awards, which are held in a different country every year.

Previous Green Apple Award winners have gone on to win European and World Awards, and many have taken on the status of International Green World Ambassadors by helping others around the world to help the environment.

THE AIMS OF THE GREEN APPLE AWARDS

- To improve environmental performance
- To encourage the efficient use of resources
- To enhance the competitiveness of organisations
- To support the wider goals of sustainable development, including social benefits through community and staff involvement
- To help Green Apple Award winners to benefit from their environmental endeavours

HOW CAN WE HELP YOU?

Climate Integrated Solutions offer a range of services and technologies all able to reduce your energy costs and emissions. To find out more about our award winning services or how we can help your business our team are waiting to help. Please contact us using the following online enquiry form, by phone or email using the details below, or visit our social media channels.

We look forward to hearing from you.

LED Lighting - Solar PV - Heat Pumps - Biomass - Boilers - Controls - Funding
